

Concrete Hoppers

Concrete Hoppers - The self-dumping hopper attachment could automatically activate to both dump and release whenever the bumper release touches the side of a dumpster. As soon as dumping is finished, the hopper can go back to original locked and upright position. This particular piece of equipment also comes along with a cable that enables operation from the seat of the forklift to be able to have the option of manually dumping the hopper. There is a locking chain provided to be able to lock the hopper to the fork truck. This product is constructed with reliable and consistent robotic welds for utmost strength. The forklift dumping hopper also has a blue powder coat finish in order to maintain durability.
