

## Rockwell Part

Rockwell Parts - The company of AxleTech International is a big supplier of specialty vehicle drive-train systems and parts along with off highway vehicles. They take great pride in being a chosen supplier to their customer base. AxleTech strives to meet and exceed their customers' expectations for quality, service, technology and delivery. They believe in working within an environment which supports the utmost integrity with empowered teamwork, combined with a relentless pursuit of results.

AxleTech International falls under the umbrella of General Dynamics. They put great importance on being an environmentally conscious company and offering a safe atmosphere for their staff to work in. Additionally, they have implemented various programs within the company to be able to help convey these values in their business policy. AxleTech happily shares this policy and welcomes interested parties to offer them with whatever questions or comments, since they are happy to share and promote this policy with a greater knowledge of their efforts. They are really devoted to preserving and improving the surroundings. AxleTech has an EHS program that not just protects the natural environment but which also actively protects their neighbors and staff too.

AxleTech specializes in the manufacture and designing of planetary axles meant for both commercial and military applications, that could consist of anything from construction equipment to airport ground support. They take great pride in being a ground-breaking drive-train solutions provider also. AxleTech specifically designs axles to meet specific application demands. They have more than one thousand different axle specs in their present offering. With over one hundred years of skill and history, AxleTech proudly supplies the most complete solution for any of your axle requirements. The business is well known in many commercial and military applications. They provide complete axle assemblies for aftermarket replacement needs, together with servicing axle requirements for OE production. Their high mobility ISAS have extra details that can be found in the "ISAS" product selection.
